THE Indian textile industry is one of the remarkable instances of a sector achieving the national objectives of ‘Make in India’, international competitiveness and grassroots employment.

At LMW, we see ourselves as a catalyst of this economy-driving sector.

Over the decades, we have leveraged the country’s resident engineering excellence to manufacture world-class textile spinning machinery. Our products have facilitated the competitiveness of the country’s textile sector.

The result is that at LMW, we bring a serious responsibility to our role and function.

We are not just a company engaged in the manufacture of cutting-edge textile spinning machinery. We are a company engaged in

LMW's machines spin the yarn that is used by one of the world's finest fabric maker, which sells more than 50% of its products to leading global fashion labels.

Vietnam's largest melange yarn manufacturer, who also has a significant presence in the global spinning sector invested extensively in LMW's spinning equipment.

MAKE IN INDIA. DELIGHT THE WORLD.

THE Government of India has showcased its desire to strengthen India's respect across the global community of nations.

The government's simple solution is to Make in India.

This manufacturing focus will leverage the country's deep entrepreneurial tradition, manufacturing competence and cost competitiveness.

Generating employment and national prosperity while enhancing value for customers the world over.

At LMW, we have been engaged in this relevant endeavour across the decades.

Over 70% of Spun Yarn produced in India is from LMW's machinery.

We shipped more than 24 lakh spindles during 2015-16; nearly 22.36% of our 2015-16 revenues were derived from exports.

We strengthened the price-value proposition by keeping equipment prices unchanged over time.

The result: Our turnover grew 3.54% CAGR and profit after tax grew 9.92% CAGR in the five years ending 2015-16.

Demonstrating that Make in India is good for the country, customer and the world.

LMW has 300+ global customers some of whom are leading spinning and fabric manufacturers in their geographies.

Over the years...
We made our machines more compact.
Enabling better productivity for customers.

LMW is renovating the Periyanaickenpalayam Railway Station, among the first instances of a private sector company renovating national railway infrastructure.

Over the years...
We made our machines technology-intensive.
Widening product development versatility.

BUILD INDIA

THE Indian Government is inviting the private sector to 'Build India' from the grassroots upwards. We believe that this shared responsibility will catalyse community building, create the next generation of community achievers and stimulate local economies.

At LMW, we embarked on this fulfilling journey from the time we went into business.
Healthcare: We fund hospitals managed by charitable institutions. We support the medication expenses of patients suffering from cancer. We organise annual eye camps in the villages of Periyanaickenpalayam and Kaniyur.

Education: We operate the GKD Matriculation Higher Secondary School, Periyanaickenpalayam, providing education to more than 2,000 students from LKG to Class XII. We selectively fund the infrastructure needs of a number of schools in our hinterland. We implemented a skill development programme in Nagaland.

Infrastructure: We play an active role in infrastructure development; part-funded the construction of rural roads; funded the procurement and installation of solar lanterns in rural Uttarakhand.
In doing so, we touched the lives of millions in just five years.

SKILL INDIA

THE Indian Government has pledged to make India the skill capital of the world. We believe that when the competence of the second most populous nation, endowed with the youngest global population, is enhanced, the resulting economic benefits can extend across the world for the longest tenure.

At LMW, we have been committed to this ideal for decades.

We have invested in strengthening the skills of our employees, business partners and the larger community with the conviction that education and awareness can transform destinies.

We institutionalised a training calendar for our management, staff, workmen and contract labour. We provided over 12,000 person-days of training in 2015-16

We trained our vendors in enhancing their machine productivity and quality. We provided a learning opportunity to weaker community sections

Living the philosophy that Skill India translates into Win India.

Over the years...
We made our machines 'intelligent'.
Strengthening person-machine productivity

LMW is funding coastal fishermen's training in surfing, so that this skill can be transformed into a tourist activity to supplement incomes.

Over the years...
We made our machines easily serviceable.
Increasing machine uptime.

THE Indian Government has pledged to make the country one of the cleanest in the world. We believe that Clean India will translate into enhanced healthfulness, lower national health care costs and increased national productivity. At LMW, we have been completely aligned with this perspective since we went into business.

We made significant forward-looking

investments in pollution management equipment well before they became mandatory.

All LMW units enjoy a zero-liquid discharge status.

We prudently invested in replenishing the water table in and around our manufacturing facilities.

All LMW facilities and headquarters are provided with extensive rain-water harvesting.

We undertake afforestation programmes across all our manufacturing units.

The LMW green cover extends to about 25% of our campus area.

We have invested in clean renewable power sources.

Our windmills generated 595 lakh units of power, saving significant quantities of coal.

We responded to the Swachh Bharat Abhiyaan.

We contributed to the Coimbatore Corporation to commission toilets.

Even as these investments may have generated no tangible return, we are proud to state that the LMW brand stands for environment responsibility.

Representing our humble contribution to a Clean India and Green India.

FROM THE
CHAIRMAN'S DESK

“WE BELIEVE THAT ‘WHAT IS GOOD FOR INDIA IS GOOD FOR LMW’. THIS HAS NAVIGATED OUR BUSINESS DIRECTION. **ENHANCING VALUE FOR COMPANY, COMMUNITY AND COUNTRY.**”

SANJAY JAYAVARTHANAVELU
CHAIRMAN AND MANAGING DIRECTOR

Dear shareholders,

AT LMW, WE BELIEVE THAT THE COUNTRY COMES FIRST.

In an increasingly competitive environment, success is derived from the ability to align strategy with customer needs and national objectives.

The Government of India desires to shift the global textile industry's centre of gravity to India. For this to transpire, companies will need to fundamentally build their foundations around the efficient conversion of abundant cotton being grown within the country. This foundation will need to be reinforced through investments in larger spinning capacities, cutting-edge technologies,

cost-effective infrastructure, equipment versatility and maximised machine uptime.

At LMW, we proactively built our business around a singular focus: empower customers and make their businesses successful. In doing so, we transformed from a company respected for equipment quality to one admired for its service commitment. The result is that despite increased competition, we protected our domestic market share and established a strong presence in key global spinning hubs.

Commissioned as a backward integration to support the infrastructure of our core business, the machine tools division has emerged as a value-leader. Going

forward, this unit promises to strengthen India Inc.'s resolve in establishing a more meaningful global role with the launch of technology-intensive mother machines.

Castings form the essential backbone of industrial production. Specialised in heavily-cored, thin-walled castings, our foundry unit's products find application in engine blocks, compressors, transmission systems, locomotives and traction motor housings as well as heavy castings for machine tools. As our products gain acceptance from global MNCs operating in India, this unit is expected to strengthen India's global image in the global manufacturing space as a quality-respecting manufacturing base.

Our recent venture in the aerospace sector was also driven by the philosophy to prioritise national interests. This extension was inspired by the perception that when India purchases aircraft from global aircraft suppliers, there

8% by 2020. We believe that this acceleration in a compressed time-frame will necessitate significant investments across the sector's value chain.

LMW is prepared for what lies ahead.

Over the years, the Company has proactively reoriented from a conventional equipment manufacturing company into a modern service-driven organisation with a robust manufacturing back-end.

We believe that this complement will make it possible for LMW to address exciting sectoral opportunities, translating into attractive growth over the foreseeable future.

will be a growing need for offset programmes. Over the years, we received component approvals from leading global aircraft manufacturers, providing us with a window of opportunity in the global aerospace sector. We are optimistic that this vertical will make an attractive contribution to our growth.

The Government of India desires to shift the global textile industry's centre of gravity to India.

Looking ahead

The Government of India has outlined the aspiration to double India's share of the global textile trade to

MANAGEMENT DISCUSSION AND ANALYSIS REPORT

Economy Overview

In February 2016, the Central Statistical Office estimated India's economic growth to be 7.6% for 2015-16. During the same period, India's Gross Value Addition for the manufacturing sector is expected to be 7.3%. These figures stand in comparison to the economic growth rate of 7.2% and the manufacturing Gross Value Addition rate of 7.1% achieved during 2014-15. On the other hand, Asian Development Bank and Reserve Bank of India expect India's economic growth during 2016-17

to be at 7.4% and 7.6% respectively. All economic data indicate that India's economy is likely to grow by over 7% in this fiscal year and the next. However, repeated contractions in factory output and subdued export performances are indicative of prospective challenges. Likewise, India's economy seems to be expanding in spite of a slowdown in green-field investments, resulting in a shortage of new job opportunities.

To spur domestic investments, RBI cut the repo rates in April 2016. This move is expected to enhance the supply of liquidity and facilitate bank lending. While inflation during 2016-17 is expected to remain stable, the status quo could be challenged if unfavourable weather escalates food prices; the Indian Rupee depreciates sharply and crude oil prices rise. The gradual implementation of the Seventh Pay Commission recommendations is also likely to be a factor.

With the continuing global slowdown and fall in commodity prices, India's

7.6%

India's economic growth for the year 2015-16.

India's Gross Value Addition in 2015-16 for the manufacturing sector is expected to be 7.3%.

exports in the first 11 months of 2015-16 dropped to USD 238 billion, as against the figure of USD 286 billion in 2014-15. Cumulative imports for the same period of 11 months were worth more than USD 351 billion, as against USD 412 billion in 2014-15. The drop in global oil prices facilitated lower import costs for the country.

The Indian Government has taken several measures to facilitate the ease of doing business within the country. These initiatives, along with the 'Make in India', 'Skill India' and 'Startup India' flagship programmes of the government, promise to boost the contribution of the manufacturing sector to the GDP, and also bring in further foreign investments into the country. In addition, the Government has also laid an emphasis on addressing infrastructure bottlenecks in the country.

These measures seem to be bearing fruit. Recent statistics suggest a turnaround in economic activity, with major infrastructure markers like electricity generation, cement production, cargo handled at ports and two-wheeler/LCV sales growing rapidly compared to the same period in the previous year. Also, Foreign Direct Investment in the country increased to USD 42 billion during the April – February period of 2015-16, an increase of 27.45% from the inflows in the corresponding period of the previous year.

Segment Information

Your Company has four major product segments, comprising the Textile Machinery Division (TMD), Machine Tools Division (MTD), Foundry Division (FDY), Advanced Technology Centre (ATC) and a Wind Energy Division. All these divisions are located in and around Coimbatore, Tamil Nadu, India.

Industry Overview

The Indian textile industry is the second largest employer after agriculture, providing employment directly to over 45 million people and indirectly to 60 million people. The Indian textile industry is present across the entire value chain, from natural to man-made fibres and from apparel to home furnishings. Its share in the country's GDP is 4% and its share of exports is 13%. The Indian textile industry contributes to about 14% of the overall Index of Industrial Production. The capacity and the capabilities of the Indian textiles industry are varied, with the hand-spun and handwoven textile sectors at one end of the spectrum while the capital-intensive sophisticated mills sector thriving at the other end.

The Indian Textile Industry is expected to grow significantly both in volume and value terms during 2016-17 considering numerous initiatives being undertaken by the Government.

Recognizing the economic potential of the Textiles and Apparels sector, the Government is actively promoting the sector through its flagship manufacturing programme 'Make in India'. In addition, the Government has put a number of export promotion policies into practice for the overall development of the textiles sector. These policies comprise an allowance of 100 percent FDI in the Indian textiles sector under the automatic route, providing assistance for the creation of infrastructure in about 74 textile parks spread across the country (under the Scheme for Integrated Textile Parks), and the promotion and prioritisation of Garments and Technical Textiles manufacturing.

Prospects

The Indian Textile Industry is expected to grow in the coming years, considering the following factors:

- Increased penetration of organised retail, favourable demographics and rising income levels that will drive textile demand.

- Abundant availability of raw material like cotton, silk, wool and jute.

- India enjoys a comparative advantage in terms of skilled manpower and cost of production in relation to many other textile producing countries.

- Domestic per capita expenditure on textiles will increase with the growth of the Indian economy, thereby increasing the size of India's domestic textile market. It is expected that by 2025, India's domestic per capita expenditure on garments will rise to USD 129.

- The huge size of the international textile market, expected to be around USD 2.11 trillion by 2025, is a growth opportunity for India.

- Numerous pro-industry measures announced by the Central Government, along with a number of State Governments, are expected to increase the rate of investments within the sector.

Challenges for the Indian textile industry

- Technological backwardness, especially in the weaving, processing and garmenting segments.

- Low share in global exports.

- Disadvantage of low volume of scale, vis-a-vis competing countries.

- Slow infrastructure development and inadequate power, among others.

- High interest cost and limited availability of finance to the SME sector.

- Preferential tariff regimes that favour competing countries.

Outlook

The government is likely to soon unveil the new National Textile Policy. This new policy will aim to achieve USD 300 billion through textile exports by 2024-25 and will aim to add an additional 35 million jobs. It is encouraging that the Government is undertaking various initiatives to not only ramp the production of textile products but is also ensuring that Indian textile products climb the textile value chain. Such measures, undertaken through the Make in India programme, promise to enhance demand and enable Indian textile products to

access newer markets.

India's population is expected to reach 1.34 billion by 2018-19. Correspondingly, the demand for textiles is likely to increase, being a basic necessity product. Also, the domestic demand for textile products has been consistently buoyed by increasing disposable incomes and rising consumerism, which in turn has resulted in the rapid growth of the textile retail sector across the country. The organised apparels segment is expected to grow at a Compound Annual Growth Rate (CAGR) of 13% in the next ten years.

The Government is also revamping the Focus Product

Scheme and the Focus Market Scheme to enable Indian textile products to easily find markets across the globe.

Segment Information

These developments augur well and will present the Company with growth opportunities. Your Company augmented and strengthened its Research and Development, Manufacturing and Marketing efforts and is in a position to take advantage of the evolving opportunities.

Industry overview

The Indian machine tool industry possesses the capability to design and develop general purpose and special purpose machinery for use in mid-level applications. The country is set to become a key player in the global machine tools industry and likely to see substantial high-end machine tool manufacturing in the future. Machine tools are important contributors to economic growth and the government has rightly identified this sector for further growth under the Make in India programme.

As per the statistics of the Indian Machine Tool Manufacturing Association (IMTMA), consumption of machine tools within India was valued at ₹11,225 Crores during 2015-16

as against ₹9,973 Crores during the previous year. The Indian automobile industry accounts for almost 70% of the demand for machine tools and an increased demand for automobile products in the previous year has enabled the industry to expand.

The Indian machine tool industry has around 1,000 units invested in the production of machine tools, accessories/attachments, subsystems and parts. Of these, around 25 in the large scale sector account for 70% of the turnover and the rest are in the SME sector of the industry. Approximately, 75% of Indian machine tool producers are ISO-certified. While the large organised players cater to India's heavy and medium industries, the small-scale sector meets the demand of ancillary and other units. Many machine tool manufacturers have also obtained the CE Marking certification, in keeping with European market requirements.

The Indian machine tool industry is poised for growth, given the current shortfall between demand and supply. The industry is moving towards increasingly sophisticated CNC machines, driven by demand from key user segments such as automobiles, consumer durables and aerospace, among others.

Prospects

- The government's 'Make in India' initiative is expected to aid the growth of domestic machine tool manufacturers.
- Development of industrial corridors across the country.
- India's growing stature in the global market as a sourcing hub for auto components as well as its emergence as a global export hub for cars.
- Strong and growing domestic demand for medical, strategic and automotive electronics, mobile phones, personal computers and other consumer durables.
- Increasing demand for telecom infrastructure equipment due to an increasing telecom usage-density and internet penetration.
- Increased infrastructure development projects across the country resulting in a demand for capital goods.

■ Increasing defence procurement with offset clause and greater access of defence equipment manufacturing for the private sector.

■ Increasing awareness about technologically efficient products and the adaptation of the same by manufacturers.

Challenges

- Import of second-hand machinery poses a challenge to domestic machine tool manufacturers.
- A lack of capability in designing high-end machine tools has created technology gaps between foreign manufacturers and Indian manufacturers.
- Domestic machine tool manufacturers face a reducing price advantage vis-à-vis foreign players, on account of global companies setting up manufacturing facilities in India.
- Availability of skilled manpower in sufficient numbers.

Outlook

The 'Make in India' initiative is expected to be a significant game-changer for manufacturing activities within the country. If implemented as envisaged, this initiative

has the potential to accelerate manufacturing in India, increase investment in Research and Development and serve as a platform to encourage manpower development. The Make in India initiative is expected to enhance higher levels of investment, growth and demand for machine tools.

In addition, governmental initiative to enhance ease of doing business in India as well as rational tax, monetary, foreign trade and labour policies are expected to provide the necessary impetus to manufacturing sectors within the country. The thrust on infrastructure development across almost all sectors in the country is expected to generate considerable business for the Indian machine tool industry. The Company's

policy of continuous Research and Development gives it the ability to respond to any developing market requirement. LMW has, over the years, developed several new products suitable for defence, automobile, tool and die, and aerospace requirements, which are well accepted in the market.

MTD segment performance

During the year under review, this division sold 925 machines for a value of ₹18,966.17 Lakhs as against ₹20,497.20 Lakhs in the previous year.

Industry overview

The Indian foundry industry manufactures a wide array of products that find use in the automobile, railways, machine tools, defence, infrastructure, power, pump/valves and other industries of national economic importance. The Indian foundry industry has an approximate turnover of USD 18 billion. The primary markets for Indian casting exports are the U.S. and the European Union. Total casting exports were to the tune of USD 2.2 billion in 2014-2015. However, during the year under review, the industry expects only a marginal increase considering the global economic slow-down. Imports during the same period were to the tune of USD 800 million. It is notable that the landing cost of castings from

China for specific sectors is 15 to 20% lower than the Indian prices.

Nevertheless, the Indian foundry industry is well established, operates in well demarcated clusters across the country and produces about 10 million metric tonnes of castings in various grades; about 60% of the total castings manufactured are of grey iron. The total installed capacity is about 15 million tonnes and 60% of the total casting produced in the country is for the automobile sector. Some of the important foundry clusters in India are located in Belagavi, Jalandhar, Coimbatore, Kolhapur and Rajkot. India is the third largest manufacturer of castings in the world.

In India there are approximately 5,000 foundry units of which 90% fit into the definition of a MSME unit. According to the Indian Institute of Foundrymen, about 1,500 units enjoy International Quality Accreditation. The Indian foundry industry is labour-intensive and employs about 5,00,000 people directly and about 1,50,000 people indirectly. Indian foundries not only manufacture volume-based products but have also, over the years, acquired capabilities to manufacture complex castings. With a growing awareness regarding pollution, a number of foundries have started

adopting environment-friendly manufacturing practices. However, no major investment for capacity addition has taken place in the last two years as projected demand from user industries did not materialise.

Segment Information

Your Company has three units with a capacity to produce 54,000 tonnes of castings per annum. A major portion of the castings produced are for captive consumption while the rest is sold in national and international markets.

Prospects

- The development of 'Smart City' projects, infrastructure, power and other core industries across the country is expected to spur demand for castings.

- Nuclear power capacity expansion will generate a significant demand for castings.

- Indigenisation of defence industry manufacturing is expected to increase the demand for castings.

Challenges

- A shortage of skilled manpower results in lower productivity.

- Poor road, rail and port connectivity raises product cost per ton.

- Funds required for technology upgradation is high.

Outlook

The demand for castings is likely to grow rapidly in India, given the focus on infrastructure, sustainable energy generation, power, auto, auto-ancillary and construction industries. However, the foundry sector needs to upgrade to meet the projected demand from various sectors and also remain globally competitive. With low margins and increasing cost of inputs such as manpower and electricity as well as increasing environment compliance costs, the foundry industry is not able to invest in new, productive and greener technologies. There is an urgent need on the part of the Indian Government to bring

in measures that promote investments in productive and green foundry technology to promote energy efficient manufacture.

With the Central Government's thrust on the manufacturing sector and the 'Make in India' initiative, the Indian foundry industry expects USD 3 billion worth of investments in another 10 years to meet the potential demand of 30 million tonnes of castings in the country at that time.

The Company has consistently adopted contemporary technology and lean practices which have enabled agility in manufacturing, enabling LMW to respond to market requirements.

The Company has a well-established brand image of being an optimal cost castings supplier recognized world-wide as a non-polluting facility.

Foundry segment performance

This division has sold 3,927 MT of ductile iron and grey iron castings valued at ₹6,597.97 Lakhs during the year under review, as against 3,464 MT valued at ₹5,627.23 Lakhs in the previous year. Out of the total castings sold, about 19.90%, accounting for ₹1,312.89 Lakhs, was exported.

ADVANCED TECHNOLOGY CENTRE

Industry overview

The Indian civil-aviation industry has exhibited tremendous resilience to the global economic slowdown and ranks ninth in the global civil aviation market. This is attributed largely to the growing economy, increased competition among airlines, airport development, greater use of technology, foreign direct investment and the increased emphasis on regional connectivity.

With a growth of over 20% in the domestic aviation market in 2015, India is poised to become the third largest global aviation market by 2020. With a network of numerous domestic and international airliners connecting 40 countries across the globe, Indian airports handled the traffic of 190 million passengers in 2015. Yet, India is one of the least

penetrated air-markets in the world with 0.04% trips per capita per annum, compared with 0.3% in China and more than 2% in the US.

Increasing disposable incomes, decrease in Aircraft Turbine Fuel (ATF) prices, increase in tourism and visa reforms have placed India in a unique position. This is expected to bring the country closer to achieving its vision of becoming the largest aviation market by 2030.

The Advanced Technology Centre (ATC) specialises in the manufacture and supply of high precision parts and components required for the aerospace industry. In this regard, your Company has created infrastructure and capabilities accredited with the latest quality certification and approvals.

Prospects

- Increased passenger traffic in India and in the Asia Pacific region.

- Favourable Government policies under the Make in India initiative that will facilitate the growth of the aerospace industry.

- Defense off-set clause, impetus to indigenous defense manufacturing and modernisation of Indian Air Force over the years.

Challenges

- Stiff competition from global players in the Indian market.

- Lack of advanced technology matching global competitors.

- Shortage of skilled manpower.

Outlook

India is at the threshold of a major change in the aviation sector, with the development of 100 'Smart Cities', expansion of existing airports and with the development of more than 50 new airports across the country. The government is planning to invest over USD 120 billion in the development of airport infrastructure and navigation services.

With the government focusing on the 'Make in India' initiative to boost manufacturing, India is poised to become a major manufacturing base for the aerospace sector. The country is expected to add about 800 civilian aircraft by 2020 to meet the growth in demand. The National Civil Aviation Policy (NCAP 2016) is likely to provide a significant stimulant to the

industry. Various fiscal and monetary incentives, liberal policies focused on ease of doing business and enhanced push for regional and global connectivity are all expected to augur well for the growth of the Indian aerospace industry in the years to come.

The Advanced Technology Centre is equipped with special equipment and processes the capacity to respond to any emerging market requirement.

ATC segment performance

During the year under review, the ATC segment had a turnover of ₹1,310.39 Lakhs as against the previous year's turnover of ₹1,129.07 Lakhs. Job work income earned during the year amounted to ₹1,045 Lakhs as against ₹1,124.24 Lakhs during the same period last year.

Risk management

The Company has adopted a comprehensive and integrated risk appraisal, mitigation and management process. The risk mitigation measures of the Company are placed before the Board periodically for review and improvement.

Internal control system and adequacy

The internal control mechanism of the Company is well documented. This is embodied in the Oracle E-Business suite (ERP system). It is a common practice in the Company to lay down well thought out business plans for each year. From the annual business plan, detailed budgets for revenue and the capital for each quarter is determined. The actual performance is reviewed in comparison with the budget and deviations, if any, are addressed adequately.

The Company also has an internal audit team commensurate to the size and volume of the business. The internal audit programme covers all the functions and activities of the Company.

A Statutory Compliance Audit Team is constituted to check compliance in all areas and report to the management. This facilitates corrective measures to be taken efficiently and wherever required.

The Audit Committee of the Board of Directors meets every quarter to review the reports of the Internal and Statutory Audit and to verify all financial statements, ensuring compliance.

Human resource

Your Company enjoys the support of a committed and well satisfied human capital. Compensation packages offered by the Company, best-of-class methods

in recruitment, training, motivation, and performance appraisal, attract and retain the best in talent. These practices enable the Company to keep the attrition rate well

below the industry average. The Company had 3,241 employees at the end of the financial year as on 31st March, 2016.

The Textile Machinery Division of the Company, during the year under review, has recorded a turnover of ₹2,19,374.36 Lakhs as against ₹2,03,671.77 Lakhs achieved during the last year, recording an increase of 7.71% over the previous year.

Textiles being a basic necessity product, the Indian Textile industry has benefitted from growth in demand for textile products in India and from across the globe. Equally, Government's emphasis to modernize and develop various segments of the textile value chain has presented the Indian Spinning Industry with opportunities to grow further. During the year under review demand for textile machinery has moderately increased because of new projects being set up and modernisation/capacity addition by existing players.

The Government under its Make in India initiative has rightly focused its efforts on further development of the Textiles sector. Schemes such as Amended Technology Upgradation Fund Scheme, Focus Market/Product Scheme, Integrated Textile Parks/Clusters will augur well for the further development of the Indian textile industry. Besides a number of State Governments in India have policies in place to promote the industry. The Government is also making a determined effort to ensure that the industry in India moves up the textile value chain by setting up/upgrading textile research institutions.

These measures are expected to boost investment activity across the textile value chain and in turn have the effect of boosting the demand for textile spinning machinery. The Company has over the years developed suitable expertise in Innovation and is continuously investing its efforts to build its presence in countries having a sizeable textile spinning industry. Internally the Company has undertaken various measures aimed at boosting productivity and for optimization of overall cost. These initiatives would enable the Company to respond positively to any developing market opportunity.

MACHINE TOOL DIVISION

Turnover of the Machine Tool Division during the year under review was ₹19,393.62 Lakhs as against ₹20,829.70 Lakhs recorded during the last year showing a decrease of 6.89% over the previous year.

Factory output figures have continuously contracted during a major part of 2015-16 before stabilising in the closing months. This is a pointer to lower demand for machine tools.

The Company has been able to launch new machines/ variants to existing machinery during 2015-16. The new variants are well received in the market and this would result in substantial business for the Company in the years to come.

The Government's flagship programmes like Make in India and Smart City initiatives provide the basis for future growth for the machine tool industry in India. These measures are expected to increase the demand for capital goods and machine tools. The Indian machine tool industry needs to scale up its presence by developing the capability to manufacture cost effective value added products.

The Company continues with its focus on Innovation and emulation/adoption of best of practices in manufacturing. This would enable this division to respond positively to any emerging opportunity.

FOUNDRY DIVISION

Foundry Division has achieved a turnover of ₹6,597.97 Lakhs as against ₹5,627.23 Lakhs recorded during the previous year showing an increase of 17.25% over the previous year. The export turnover constitutes 21.78% of the division's turnover.

Given the impetus placed on infrastructure development across the country and towards growth of manufacturing within the country, the Indian foundry industry can look forward to increased demand for its products during 2016-17.

The Company has consistently focused its energy and efforts at prevention of scrap/rejection, as waste elimination improves productivity and offers better revenue realization. Also the Company is looking at options like consolidation of foundry units, modernisation of machinery to cut/optimize operational costs. All these measures are expected to provide your Company's products with enhanced cost competitiveness.

WIND ENERGY DIVISION

The Company has a policy of tapping non-conventional and renewable resources of energy namely wind power to meet with its energy requirements.

As on 31st March, 2016 the Company has installed 28 WEGs with a total capacity of 36.80 MW. This division has generated 595 lakh units of power during 2015-16.

The entire wind power generated has been captively consumed by the manufacturing units within the Company and thereby helped to reduce the power cost.

ADVANCED TECHNOLOGY CENTRE

Advanced Technology Centre has achieved a turnover of ₹1,310.39 Lakhs during the current financial year as against ₹1,129.07 Lakhs achieved during the same period last year. Job work income earned during the year amounted to ₹1,045 Lakhs as against ₹1,124.24 Lakhs during the same period last year.

During the year under review this division has been able to secure orders from a number of international Tier II aerospace companies. The Company has invested in facilities necessary to meet with special

requirements of clients and has obtained all the necessary quality certification.

With the growth of the civil aviation sector and defence procurement within the country, this division can expect increased order bookings and execution during 2016-17.

REAL ESTATE ACTIVITY

The Élan Project at Parasakthi Nagar, Ganapathy, Coimbatore promoted by LMW in association with M/s Sobha Limited is progressing. Spread over 4.76 acres of land this project is for construction of 236 residential apartments consisting of 1 BHK, 2 BHK & 3 BHK. Your Company has a revenue share of 30% in the project.

SECRETARIAL AUDIT REPORT

FOR THE FINANCIAL YEAR ENDED 31ST MARCH, 2016

[Pursuant to Section 204(1) of the Companies Act, 2013 and Rule No. 9 of the Companies (Appointment and Remuneration of Managerial Personnel) Rules, 2014]

To
The Members,
LAKSHMI MACHINE WORKS LIMITED
CIN : L29269TZ1962PLC000463
Perianaickenpalayam, SRK Vidyalaya Post, Coimbatore – 641 020

I have conducted the Secretarial audit of the compliance of applicable statutory provisions and the adherence to good corporate practices by **M/s. Lakshmi Machine Works Limited** (hereinafter called the Company). Secretarial Audit was conducted in a manner that provided me a reasonable basis for evaluating the corporate conducts/statutory compliances and expressing my opinion thereon.

Based on my verification of **M/s. Lakshmi Machine Works Limited's** books, papers, minute books, forms and returns filed and other records maintained by the Company and also the information provided by the Company, its officers, agents and authorized representatives during the conduct of secretarial audit, I hereby report that in my opinion, the Company has, during the audit period covering the financial year ended **31st March, 2016**, complied with the statutory provisions listed hereunder and also that the Company has proper Board-processes and compliance mechanism in place to the extent, in the manner and subject to the reporting made hereinafter.

I have examined the books, papers, minute books, forms and returns filed and other records maintained by the Company for the financial year ended on 31st March, 2016 according to the provisions of:

- i. The Companies Act, 2013 (the Act) and the rules made thereunder;
- ii. The Securities Contracts (Regulation) Act, 1956 ('SCRA') and the rules made thereunder;
- iii. The Depositories Act, 1996 and the Regulations and bye-laws framed thereunder;
- iv. Foreign Exchange Management Act, 1999 and the rules and regulations made thereunder to the extent of Foreign Direct Investment, Overseas Direct Investment and External Commercial Borrowings;
- v. The following Regulations prescribed under the Securities and Exchange Board of India Act, 1992 ('SEBI Act'):-

Report on the Standalone Financial Statements

We have audited the accompanying standalone financial statements of **LAKSHMI MACHINE WORKS LIMITED** ('the Company'), which comprise the balance sheet as at 31st March, 2016, the statement of profit and loss and the cash flow statement for the year then ended, and a summary of significant accounting policies and other explanatory information.

Management's Responsibility for the Standalone Financial Statements

The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation and presentation of these standalone financial statements that give a true and fair view of the financial position, financial performance and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Accounting Standards specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these standalone financial statements based on our audit. We have taken into account the provisions of the Act, the accounting and auditing standards and matters which are required to be included in the audit report under the provisions of the Act and the Rules made thereunder.

We conducted our audit in accordance with the Standards on Auditing specified under Section 143(10) of the Act. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and the disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due

to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the Company's preparation of the financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of the accounting estimates made by the Company's Directors, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the standalone financial statements.

Opinion

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at 31st March, 2016 and its profit and its cash flows for the year ended on that date.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2016 ("the Order") issued by the Central Government of India in terms of sub-section (11) of section 143 of the Act, we give in the **Annexure A**, a statement on the matters specified in the paragraph 3 and 4 of the order.
2. As required by section 143(3) of the Act, we report that:
 - (a) we have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
 - (b) in our opinion proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books;
 - (c) the balance sheet, the statement of profit and loss and the cash flow statement dealt with by this Report are in agreement with the books of account;
 - (d) in our opinion, the aforesaid standalone financial statements comply with the Accounting Standards specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014;

- (e) on the basis of the written representations received from the directors as on 31st March, 2016 taken on record by the Board of Directors, none of the directors is disqualified as on 31st March, 2016 from being appointed as a director in terms of Section 164 (2) of the Act;
- (f) with respect to the adequacy of the internal financial controls over financial reporting of the Company and the operating effectiveness of such controls, refer to our separate report in "**Annexure B**"; and
- (g) with respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us;
 - i. the Company has disclosed the impact of pending litigations on its financial position in its financial statements – Refer Note 24.1 to the financial statements;

- ii. the Company did not have any long term contracts including derivative contracts for which there were any material foreseeable losses.
- iii. There has been no delay in transferring amounts, required to be transferred, to the Investor Education and Protection Fund by the Company.

ANNEXURE – A TO THE AUDITORS' REPORT

The Annexure referred to in Independent Auditors' Report to the members of the Company on the standalone financial statements for the year ended 31st March, 2016, we report that:

1. In respect of its Fixed Assets:
 - a. The company has maintained proper records showing full particulars including quantitative details and situation of fixed assets.
 - b. The company has physically verified fixed assets during the year in accordance with a regular and phased programme of verification, which in our opinion provides for physical verification of all the fixed assets at reasonable intervals having regard to the size of the company and nature of its assets. According to the information and explanations given to us no material discrepancies were noticed on such verification.
 - c. According to the information and explanations given to us and on the basis of our examination of the records of the Company, the title deeds of immovable properties are held in the name of the Company.
2. In respect of its inventories:
As explained to us, physical verification of inventories has been conducted at reasonable intervals by the management and no material discrepancies were noticed.
3. The company has not granted any loan, secured or unsecured to

- companies, firms, Limited Liability Partnerships or other parties covered in the register maintained under section 189 of the Companies Act, 2013, during the financial year and hence sub-clauses (a) to (c) of clause (iii) of the Order are not applicable.
4. The Company has not granted loans or made investments or given guarantees and securities during the year and hence compliance with Section 185 and 186 are not applicable.
5. The company has not accepted any deposits from the public and as such clause 3(v) of the Order is not applicable.
6. We have broadly reviewed the cost records maintained by the company specified by the Central Government under sub-section (1) of Section 148 of the Companies Act, 2013, as applicable to the company, and are of the opinion that prima facie the specified cost records have been maintained. We have, however, not made a detailed examination of the cost records with a view to determine whether they are accurate or complete.
7. According to the information and explanations given to us and on the basis of our examination of the records of the company in respect of the statutory dues:

ANNEXURE – B TO THE AUDITORS' REPORT

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of **LAKSHMI MACHINE WORKS LIMITED** as of 31st March, 2016 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31st March, 2016, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

1. CORPORATE INFORMATION

Lakshmi Machine Works Limited is a public company domiciled in India and incorporated under the provisions of the Companies Act, 1956. Its shares are listed on two stock exchanges in India. The company is engaged in the manufacturing and selling of textile spinning machinery, CNC Machine Tools, Heavy castings and parts and components for Aero space industry. The company caters to both domestic and international markets..

2. SIGNIFICANT ACCOUNTING POLICIES

2.1 Method of accounting

The financial statements are prepared under historical cost convention and on accrual basis and in accordance with the provisions of the Companies Act, 2013 and accounting principles generally accepted in India and comply with the Accounting Standards as prescribed under Section 133 of the Companies Act, 2013 read with Rule 7 of the Companies (Accounts) Rules, 2014, provisions of the Companies Act, 2013 to the extent notified and guidelines issued by the Securities and Exchange Board of India. Accounting policies have been consistently applied except where a newly issued accounting standard is initially adopted or a revision to an existing accounting standard requires a change in the accounting policy hitherto in use.

2.2 Use of Estimates

The preparation of financial statements are in conformity with generally accepted accounting principles requires estimates and assumptions to be made that affect the reported amounts of assets and liabilities on the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Differences between actual results and estimates are recognized in the period in which the results are known/ materialized.

2.3 Fixed Assets

Fixed assets are stated at historical cost net of Cenvat credit /Value added Tax, including appropriate direct and allocated expenses less accumulated depreciation and impairment losses, if any. Increase/Decrease in Rupee liability in respect of foreign currency liability related to acquisition of fixed assets is recognized as expense or income in the Statement of Profit and Loss. Self constructed assets are capitalized at factory cost.

2.4 Investments

Long Term Investments are carried at cost inclusive of all expenses incidental to acquisition. Provision for diminution in value of long term investments is made only if such a decline is other than temporary in nature in the opinion of the management. Adjustment for diminution in value of long term investments, considered temporary in the opinion of the management, are determined for each investment individually and credited to Investment Fluctuation Reserve by transfer from Surplus.

2.5 Valuation of Inventories

Inventories are valued at lower of cost and net realizable value after providing for obsolescence wherever necessary. Cost is determined on weighted average basis. Net realizable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and estimated costs necessary to make the sale.

2.6 Translation of Foreign Currency Transactions

Foreign currency transactions are recorded at the prevailing exchange rates at the time of initial recognition. Exchange differences arising on final settlement are adjusted and recognized as income or expense in the profit and loss account. Outstanding balances of monetary items denominated in foreign currency are restated at closing exchange rates and the difference adjusted as income or expense in the Statement of profit and loss.

The premium or discount arising at the inception of forward exchange contracts is accounted as income or expense over the life of the contract. Any profit or loss arising on cancellation or renewal of forward exchange contract is recognized as income or as expense in the period in which they arise.

2.7 Depreciation

Depreciation on all fixed assets is provided on the written down value method except in the case of Wind Mills for which Straight Line Method is adopted. The useful lives of the fixed assets is adopted as specified in Part C of Schedule II of the Companies Act, 2013 and depreciation is provided on component approach wherever applicable. For additions and deletions depreciation is provided on pro-rata basis. Intangible assets are amortized over their estimated useful lives on a straight line basis.

2.8 Recognition of Revenue

Income and Expenditure are recognized and accounted on accrual basis as and when they are earned or incurred. Revenue from sale transaction is recognized as and when significant risks and rewards attached to ownership in the goods is transferred to the buyer. Revenue from service

transactions is recognized on the completion of the contract. Dividend from Investments, Export incentives are recognized when the right to receive payment/credit is established and no significant uncertainty as to measurability or collectability exists. Revenue from carbon credits/REC entitlements are recognised on delivery thereof or sale of rights therein, as the case may be, in terms of the contract with the respective buyer.

2.9 Borrowing costs

Interest on borrowings, if any, attributable to acquisition of qualifying Assets are capitalized and included in the cost of the asset, as appropriate.

2.10 Earnings per Share

Basic Earning per share is calculated by dividing the Net Profit after tax attributable to the equity shareholders by the weighted average number of Equity Shares outstanding during the year.

2.11 Employee Benefits:

Short term employee benefits (other than termination benefits) which are payable within 12 months after the end of the period in which the employees render service are accounted on accrual basis.

Defined Contribution Plans

Company's contributions paid / payable during the year to Provident Fund and ESIC are recognized in the Statement of profit and loss.

Defined Benefit Plans

Company's liabilities towards gratuity and leave encashment are determined using the projected unit credit method which considers each period of service as giving rise to an additional unit of benefit entitlement and measures each unit separately to build up the final obligation. Past services are recognized on a straight line basis over the average period until the amended benefits becomes vested. Actuarial gains or losses are recognized immediately in the statement of profit and loss as income or expense. Obligation is measured at the year end as present value of estimated future cash flows using a discounted rate that is determined by reference to market yields at the balance sheet date on government bonds where the currency and terms of the government bonds are consistent with the currency and estimated terms of the defined benefit obligations.

2.12 Research and Development

Revenue expenditure incurred on Research and Development activities are expensed. Fixed assets relating to Research and Development are capitalized and depreciation provided thereon.

2.13 Taxes on Income

Current Tax is determined as per the provisions of the Income-tax Act, 1961 in respect of taxable income for the year and based on the expected outcome of assessment /appeals.

Deferred Tax assets and liabilities are recognized on timing differences between accounting income and taxable income for the year and quantified using the tax rates and laws enacted or substantively enacted as on the Balance Sheet date.

Deferred Tax assets, other than those arising on account of unabsorbed depreciation or carry forward of losses under tax laws, are recognized and carried forward subject to consideration of prudence only to the extent that there is reasonable certainty that sufficient future taxable income will be available against which such deferred tax assets can be realized.

2.14 Provisions, contingent liabilities and contingent assets

Provisions involving substantial degree of estimation in measurement are recognized when there is a present obligation as a result of past events and it is probable that there will be an outflow of resources. Contingent liabilities are not recognized but are disclosed in the notes to financial statements. Contingent assets are neither recognized nor disclosed in the financial statements. Provisions, contingent liabilities are reviewed at each balance sheet date and adjusted to reflect the current best estimate.

2.15 Cash Flow Statement and Cash and Cash equivalents

Cash Flows are reported using the Indirect method, whereby profit before tax is adjusted for the effects of transactions of a non-cash nature, any deferrals or accruals of past or future operating cash receipts or payments and items of income or expense associated with investing or financing cash flows. Cash and cash equivalents include cash on hand and balances with banks in current and deposit accounts with necessary disclosure of cash and cash equivalent balances that are not available for use by the company.

2.16 Segment Reporting

Segment accounting policies are in line with the accounting policies of the company, except that segment revenue includes sales and other income directly identifiable or allocable to the segment including inter-segment revenue.

Business segments are identified on the basis of the nature of products/ services, the risk-return profile of individual businesses, the organizational structure and the internal reporting system of the company.

NOTES FORMING PART OF FINANCIAL STATEMENTS for the year ended 31st March, 2016

Segment revenue, segment expenses and segment assets and liabilities include those directly identifiable with the respective segments. Income, expenses, assets and liabilities which are not identifiable with or allocable to a separate segment on a reasonable basis but are related to the company as a whole are shown as unallocated items.

Inter-segment transfers are accounted for on cost plus basis.

2.17 Impairment of assets

An asset is treated as impaired when the carrying amount of the asset exceeds its estimated recoverable value. Carrying amounts of fixed assets are reviewed at each balance sheet date to determine indications of impairment, if any, of those assets. If any such indication exists, the recoverable amount of the asset is estimated and an impairment loss equal to the excess of the carrying amount over its recoverable value is recognized as an impairment loss. The impairment loss, if any, recognized in prior accounting period is reversed if there is a change in estimate of recoverable amount.

2.18 Leases

Assets given on leases where substantial risks and rewards incidental to ownership of the asset are not transferred to the lessee are classified as operating leases. Lease income from such operating leases is recognized on straight line basis over the lease term. Depreciation on such leased assets is charged as per the normal depreciation policy of the company for similar assets. Initial direct costs incurred specifically in relation to such operating leases is recognized as expense in the period in which they are incurred.

**CONSOLIDATED
 FINANCIAL
 STATEMENTS**

To
The Members of
Lakshmi Machine Works Limited

Report on the Consolidated Financial Statements

We have audited the accompanying consolidated financial statements of **LAKSHMI MACHINE WORKS LIMITED** ("the Holding Company") and its subsidiary **LMW TEXTILE MACHINERY (SUZHOU) COMPANY LIMITED**. The Holding Company and its subsidiary (collectively referred to as "the Company" or "the Group"), comprising of the consolidated balance sheet as at 31st March, 2016, the consolidated statement of profit and loss, the consolidated cash flow statement for the year then ended, and a summary of the significant accounting policies and other explanatory information (hereinafter referred to as "the consolidated financial statements").

Management's Responsibility for the Consolidated Financial Statements

The Holding Company's Board of Directors is responsible for the preparation of the consolidated financial statements in terms of the requirements of the Companies Act, 2013 ("the Act") that give a true and fair view of the consolidated financial position, consolidated financial performance and consolidated cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Accounting Standards specified under Section 133 of the Companies Act, 2013 (hereinafter referred to as "the Act") read with Rule 7 of the Companies (Accounts) Rules, 2014. The Board of Directors of the Company are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; the selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of the consolidated financial statements by the Directors of the Holding Company, as aforesaid.

Auditors' Responsibility

Our responsibility is to express an opinion on the consolidated financial statements based on our audit. While conducting the audit, we have taken into account the provisions of the Act, the accounting and auditing standards and matters which are required to be included in the audit report under the provisions of the Act and the Rules made thereunder.

We conducted our audit in accordance with the Standards on Auditing specified under section 143(10) of the Act. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and the disclosures in the consolidated financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the Holding Company's preparation of the consolidated financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of the accounting estimates made by the Holding Company's Board of Directors, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence obtained by us is sufficient and appropriate to provide a basis for our audit opinion on the consolidated financial statements.

Opinion

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid consolidated financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the consolidated state of affairs of the Company, as at 31st March, 2016, and their consolidated profit and their consolidated cash flows for the year ended on that date.

Other Matters

- (a) We did not audit the financial statements / financial information of one subsidiary, whose financial statements / financial information reflect total assets of ₹18,735.02 Lakhs as at 31st March, 2016, total revenues of ₹16,023.80 Lakhs and net cash flows amounting to ₹1,553.34 Lakhs for the year ended on that date, as considered in the consolidated financial statements. Lakhs for the year ended 31st March, 2016 as considered in the consolidated financial statements, in respect of subsidiary whose financial statements / financial information have not been audited by us. These financial statements / financial information have been audited by other auditors whose reports have been furnished to us by the Management and our opinion on the consolidated financial statements, in so far as it relates to the amounts and disclosures included in respect of this subsidiary, and our report in terms of sub-sections (3) and (11) of Section 143 of the Act, insofar as it relates to the aforesaid subsidiary, is based solely on the reports of the other auditors.

Our opinion on the consolidated financial statements, and our report on Other Legal and Regulatory Requirements below, is not modified in respect of the above matters with respect to our reliance on the work done and the reports of the other auditors and the financial statements / financial information certified by the Management.

Report on Other Legal and Regulatory Requirements

1. As required by sub-section 3 of Section 143 of the Act, we report, to the extent applicable, that:
 - (a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit of the aforesaid consolidated financial statements.
 - (b) In our opinion, proper books of account as required by law relating to preparation of the aforesaid consolidated financial statements have been kept so far as it appears from our examination of those books.
 - (c) The consolidated balance sheet, the consolidated statement of profit and loss, and the consolidated cash flow statement dealt with by this Report are in agreement with the relevant books of account maintained for the purpose of preparation of the consolidated financial statements.
 - (d) In our opinion, the aforesaid consolidated financial statements comply with the Accounting Standards specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014.

- (e) On the basis of the written representations received from the directors of the Holding Company as on 31st March, 2016 taken on record by the Board of Directors of the Holding Company and the report of the statutory auditors of its subsidiary companies incorporated in India, none of the Directors of the Group companies incorporated in India is disqualified as on 31st March, 2016 from being appointed as a Director of that company in terms of sub-section 2 of Section 164 of the Act.
- (f) With respect to the adequacy of the internal financial controls over financial reporting of the Holding Company and the operating effectiveness of such controls, refer to our separate report in "Annexure A"; and
- (g) with respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us;
 - i. The consolidated financial statements disclose the impact of pending litigations on the consolidated financial position of the Group. Refer Note 24.2 to the consolidated financial statements;
 - ii. The Group did not have any material foreseeable losses on long-term contracts including derivative contracts..
 - iii. There has been no delay in transferring amounts, required to be transferred, to the Investor Education and Protection Fund by the Holding Company.

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of **LAKSHMI MACHINE WORKS LIMITED**, the holding company, as of 31st March, 2016 in conjunction with our audit of the consolidated financial statements of the Company for the year ended on that date. The Holding company does not have any subsidiary company which is a company incorporated in India.

Management's Responsibility for Internal Financial Controls

The Holding Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We

conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are

subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Holding Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31st March, 2016, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

1. CORPORATE INFORMATION

Lakshmi Machine Works Limited is a public company domiciled in India and incorporated under the provisions of the Companies Act, 1956. Its shares are listed on two stock exchanges in India. The company is engaged in the manufacturing and selling of textile spinning machinery, CNC Machine Tools, Heavy castings and parts and components for Aero space industry. The company caters to both domestic and international markets.

LMW Textile Machinery (Suzhou) Company Limited, the Wholly owned subsidiary company manufactures Textile Spinning Machinery, Spares and Components.

2. SIGNIFICANT ACCOUNTING POLICIES**2.1 Basis of preparation**

The consolidated financial statements relate to Lakshmi Machine Works Limited and its wholly owned subsidiary. The financial statements are prepared under historical cost convention using uniform accounting policies and in accordance with the generally accepted accounting principles and Accounting Standard 21 on "Consolidated Financial Statements" and are presented to the extent possible in the same manner as the company's separate financial statements except as otherwise disclosed in the notes to accounts.

2.2 Principles of consolidation

- The financial statements of the company and its subsidiary company have been combined on a line by line basis by adding together the book value of like items of assets, liabilities, income and expenses after eliminating intra-group balances and intra-group transactions.
- The translation of foreign currencies into Indian Rupees [Reporting currency] is performed for assets and liabilities at the closing exchange rate at the Balance Sheet date and for revenues, cost and expenses using the average rate prevailing during the reporting period. Exchange differences arising from such translation of non-integral foreign operations are accumulated in Foreign Currency Translation Reserve until disposal of net investment.

2.3 Method of accounting

The financial statements are prepared under historical cost convention and on accrual basis and in accordance with the provisions of the Companies Act, 1956 and accounting principles generally accepted in India and comply with the Accounting Standards as prescribed under Section 133 of the Companies Act, 2013 read with Rule 7 of the Companies (Accounts) Rules, 2014, provisions of the Companies Act, 2013 to the extent notified and guidelines issued by the Securities and Exchange Board of India. Accounting policies have been consistently applied except where a newly issued accounting standard is initially adopted or a revision to an existing accounting standard requires a change in the accounting policy hitherto in use.

2.4 Use of Estimates

The preparation of financial statements are in conformity with generally accepted accounting principles requires estimates and assumptions to be made that affect the reported amounts of assets and liabilities on the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Differences between actual results and estimates are recognized in the period in which the results are known/ materialized.

2.5 Fixed Assets

Fixed assets are stated at historical cost net of Cenvat credit /Value added Tax, including appropriate direct and allocated expenses less accumulated depreciation and impairment losses, if any. Increase/Decrease in rupee liability in respect of foreign currency liability related to acquisition of fixed assets is recognized as expense or income in the Statement of Profit and Loss. Self constructed assets are capitalized at factory cost.

2.6 Investments

Long Term Investments are carried at cost inclusive of all expenses incidental to acquisition. Provision for diminution in value of long term investments is made only if such a decline is other than temporary in nature in the opinion of the management. Adjustment for diminution in value of long term investments, considered temporary in the opinion of the management, are determined for each investment individually and credited to Investment Fluctuation Reserve by transfer from Surplus.

2.7 Valuation of Inventories

Inventories are valued at lower of cost and net realizable value after providing for obsolescence wherever necessary. Cost is determined on weighted average basis. Net realizable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and estimated costs necessary to make the sale.

2.8 Translation of Foreign Currency Transactions

Foreign currency transactions are recorded at the prevailing exchange rates at the time of initial recognition. Exchange differences arising on

final settlement are adjusted and recognized as income or expense in the Statement of profit and loss. Outstanding balances of monetary items denominated in foreign currency are restated at closing exchange rates and the difference adjusted as income or expense in the Statement of profit and loss.

The premium or discount arising at the inception of forward exchange contracts is accounted as income or expense over the life of the contract. Any profit or loss arising on cancellation or renewal of forward exchange contract is recognized as income or as expense in the period in which they arise.

2.9 Depreciation

Depreciation on all fixed assets is provided on the written down value method except in the case of Wind Mills for which Straight Line Method is adopted. The useful lives of the fixed assets is adopted as specified in Part C of Schedule II of the Companies Act, 2013 and depreciation is provided on component approach wherever applicable. For additions and deletions depreciation is provided on pro-rata basis. Intangible assets are amortized over their estimated useful lives on a straight line basis.

2.10 Recognition of Revenue

Income and Expenditure are recognized and accounted on accrual basis as and when they are earned or incurred. Revenue from sale transaction is recognized as and when significant risks and rewards attached to ownership in the goods is transferred to the buyer. Revenue from service transactions is recognized on the completion of the contract. Dividend from Investments, Export incentives are recognized when the right to receive payment/credit is established and no significant uncertainty as to measurability or collectability exists. Revenue from carbon credits /REC entitlements are recognised on delivery thereof or sale of rights therein, as the case may be, in terms of the contract with the respective buyer.

2.11 Borrowing costs

Interest on borrowings, if any, attributable to acquisition of qualifying assets are capitalized and included in the cost of the asset, as appropriate.

2.12 Earnings per Share

Basic Earning per share is calculated by dividing the Net Profit after tax attributable to the equity shareholders by the weighted average number of Equity Shares outstanding during the year.

2.13 Employee Benefits

Short term employee benefits (other than termination benefits) which are payable within 12 months after the end of the period in which the employees render service are accounted on accrual basis.

Defined Contribution Plans

Company's contributions paid / payable during the year to Provident Fund, Superannuation Fund and ESIC are recognized in the Statement of profit and loss.

Defined Benefit Plans

Company's liabilities towards gratuity and leave encashment are determined using the projected unit credit method which considers each period of service as giving rise to an additional unit of benefit entitlement and measures each unit separately to build up the final obligation. Past services are recognized on a straight line basis over the average period until the amended benefits becomes vested. Actuarial gains or losses are recognized immediately in the statement of profit and loss as income or expense. Obligation is measured at the year end as present value of estimated future cash flows using a discounted rate that is determined by reference to market yields at the balance sheet date on government bonds where the currency and terms of the government bonds are consistent with the currency and estimated terms of the defined benefit obligations.

2.14 Research and Development

Revenue expenditure incurred on Research and Development activities are expensed. Fixed assets relating to Research and Development are capitalized and depreciation provided thereon.

2.15 Taxes on Income

Current Tax is determined as per the provisions of the Income-tax Act, 1961 in respect of taxable income for the year and based on the expected outcome of assessment /appeals.

Deferred Tax assets and liabilities are recognized on timing differences between accounting income and taxable income for the year and quantified using the tax rates and laws enacted or substantively enacted as on the Balance Sheet date.

Deferred Tax assets, other than those arising on account of unabsorbed depreciation or carry forward of losses under tax laws, are recognized and carried forward subject to consideration of prudence only to the extent that there is reasonable certainty that sufficient future taxable income will be available against which such deferred tax assets can be realized.

2.16 Provisions, contingent liabilities and contingent assets

Provisions involving substantial degree of estimation in measurement are recognized when there is a present obligation as a result of past events and it is probable that there will be an outflow of resources. Contingent liabilities are not recognized but are disclosed in the notes to financial statements. Contingent assets are neither recognized nor disclosed in the financial statements. Provisions, contingent liabilities are reviewed at each balance sheet date and adjusted to reflect the current best estimate.

2.17 Cash Flow Statement and Cash and Cash equivalents

Cash Flows are reported using the Indirect method, whereby profit before tax is adjusted for the effects of transactions of a non-cash nature, any deferrals or accruals of past or future operating cash receipts or payments and items of income or expense associated with investing or financing cash flows. Cash and cash equivalents include cash on hand and balances with banks in current and deposit accounts with necessary disclosure of cash and cash equivalent balances that are not available for use by the company.

2.18 Segment Reporting

Segment accounting policies are in line with the accounting policies of the company, except that segment revenue includes sales and other income directly identifiable or allocable to the segment including inter-segment revenue.

Business segments are identified on the basis of the nature of products/ services, the risk-return profile of individual businesses, the organizational structure and the internal reporting system of the company.

Segment revenue, segment expenses and segment assets and liabilities include those directly identifiable with the respective segments. Income, expenses, assets and liabilities which are not identifiable with or allocable to a separate segment on a reasonable basis but are related to the company as a whole are shown as unallocated items.

Inter-segment transfers are accounted for on cost plus basis.

2.19 Impairment of assets

An asset is treated as impaired when the carrying amount of the asset exceeds its estimated recoverable value. Carrying amounts of fixed assets are reviewed at each balance sheet date to determine indications of impairment, if any, of those assets. If any such indication exists, the recoverable amount of the asset is estimated and an impairment loss equal to the excess of the carrying amount over its recoverable value is recognized as an impairment loss. The impairment loss, if any, recognized in prior accounting period is reversed if there is a change in estimate of recoverable amount.

2.20 Leases

Assets given on leases where substantial risks and rewards incidental to ownership of the asset are not transferred to the lessee are classified as operating leases. Lease income from such operating leases is recognized on straight line basis over the lease term. Depreciation on such leased assets is charged as per the normal depreciation policy of the company for similar assets. Initial direct costs incurred specifically in relation to such operating leases is recognized as expense in the period in which they are incurred.
